Subject: Property 2 Northern Side Summary

Chris,

There was a total of 23 final samples collected from the northern and eastern side of the property analyzed for [redacted]. Eighteen sample results came back lower than [redacted] Ex. 5 Personal Privacy (PP) including seven sample results that came back as non-detected for [redacted] The other results were lower than levels of concern, with the highest concentrations being [redacted] Ex. 6 Personal Privacy (PP)

Thanks,
